OFFER	OFFER	OFFER	OFFER
<ul style="list-style-type: none"> Clear identification of partners organisations, who need to be involved should a CETR be required 	<ul style="list-style-type: none"> Multiagency meeting and, or CETR Referral to DSFT 	<ul style="list-style-type: none"> A CETR must take place Referral to DSFT 	<ul style="list-style-type: none"> Commissioner oversight Inpatient CETRs Referral to DSFT

Feedback from Article 12

- Don't shy away from putting people in higher categories because risk will escalate without support
- If referrals are need at amber, it should not have to reach the red zone for referral to be completed
- If the young person is going back into the community, they will need extra support

1. Including disengagement

2. Including poor personal care, not washing, not dressing, disordered eating, not taking medication, loss of interest in preferred activities
